ANNUAL ACTIVITY REPORT

April 2023-March 2024

As we report our successes and challenges, we express our gratitude to all those who have stood by us in this year of turbulences and triumphs. The last one year has been particularly difficult due to the ill-health of the Secretary General, Padma Shri J.L. Kaul. For a self-help organization of the blind such as ours, perhaps every year brings more challenges than the previous one. Since our inception in 1980, we have faced and overcome many such challenges.

We are happy to report that despite these challenges our various projects in areas such as education, accessibility of reading material for the blind, vocational training, women empowerment, advocacy, community-based rehabilitation and research have done quite well. Before reporting major highlights of our work, we take pleasure in sharing with you that our President, Prof. Anil K. Aneja was awarded by the Nethrodaya Foundation, Chennai for his significant contributions to the field of higher education on 23rd March, 2024.

7. ADVOCACY

During the period under report, AICB has continued its advocacy activities on four important fronts:

- a) Pursuing the earlier court cases,
- b) Filing fresh petitions,

- c) Making representations to the Government, and
- d) Helping various individuals in solving their rights-based issues.

A number of earlier cases have continued to be pursued along with filing fresh cases and preparation towards some major impact cases.

7.1 Delhi High Court Cases: The following ongoing cases have continued to be pursued in Delhi High Court –

- a) Identification of currency notes and coins;
- b) Equivalence of Special B.Ed. and General B.Ed.;
- c) Disability pension after retirement;
- d) Our case against Punjab and Sind Bank regarding reservation in promotion.

With respect to the identification of currency matter, the expert committee has filed its report and RBI has also filed its reply to it. We have sought an opportunity to file our response to the RBI report which has been granted. The same is under preparation.

As far as the issue of the Disability pension is concerned, the court is quite resistant to this issue and we have requested an opportunity to file an additional affidavit.

The other two cases have continued to be listed but have not come up for hearing due to a large number of cases being listed on those dates.

7.2 Allahabad High Court (Lucknow bench) Cases: The following ongoing cases have continued to be pursued in the Lucknow bench of Allahabad High Court –

- a) Challenging an advertisement for nearly 2000 vacancies for the post of Assistant Professor as there were gross violations of reservation for Persons with Benchmark Disabilities in the said advertisement;
- b) Improper identification of posts for the visually impaired in U.P.;
- c) Challenging an advertisement which barred the use of scribes by visually impaired candidates while taking examinations for various clerical posts notified in the said advertisement;
- d) Challenging the opening up of the post of Deputy Commissioner, Disabilities, earlier reserved for the visually impaired, for all disabilities;
- e) With respect to our case challenging an advertisement issued by Dr. Shakuntala Misra National Rehabilitation

University, U.P., which did not provide any reservation for persons with disabilities including the visually impaired, after the Stay on the said advertisement, the University was asked to issue a fresh advertisement. As there were irregularities in reservation for the visually impaired in that advertisement also, another case has been filed against the same.

These cases are at various stages of hearing and some positive outcomes are shortly expected.

7.3 Madras High Court Cases:

- a) Our case against reservation in aided colleges: In a statement during the hearing in this matter, the government appears to accept the principle of reservation in aided colleges, but we are asking for further clarifications so that there are no confusions later;
- b) Our case asking for implementation of reservation in universities is under progress;
- c) A fresh case has been filed seeking redressal in a matter where a visually impaired person was enrolled in a book-binding course but later denied the opportunity of examination due to overage. This matter is at an advanced stage of hearing.

7.4 Preparations for filing three important PILs are nearly complete –

- a) The issue of non-grant of GST exemption/concession on vehicles purchased by the visually impaired;
- b) Grant of railway concessions to persons having less than 100% visual impairment and issues concerning the Divyaang coach;
- c) A case against the Staff Selection Commission on the issue of inaccessible computers and testing environment for the visually impaired in the Examination Centres of the Staff Selection Commission.

We were advised by our lawyer to file these cases after the elections due to the model code of conduct.

7.5 Assistance was provided to the Kerala Federation of the Blind to pursue an important advocacy matter in the Hon'ble Supreme Court of India.

7.6 An advocacy workshop was conducted on 24th March, 2024 in association with our affiliate CSGAB. The workshop was inaugurated by the AICB President and was attended by around 100 participants.

7.7 An advocacy workshop was also conducted by our affiliate, Mizoram Blind Society.

7.8 A number of sensitization and advocacy workshops were also held in rural areas under the DAB project.

7.9 Individual guidance continues to be provided to visually impaired persons and affiliates regarding their rights-based issues. A number of complaints regarding denial of special FASTag facility have been addressed.

8. CRISIS INTERVENTION UNIT

Persons who lose their eyesight at a later stage of life are provided support through this Unit. They are imparted training in orientation and mobility, reading and writing Braille, daily living skills, cooking, ironing, etc. Some are also imparted training in computers.

During the period under report, 36 recently blinded persons received training, out of whom 10 were girls. This training programme has been found to be quite useful over a long period of time as it helps the target group live a meaningful life after training. During the financial year 2023-24, the programme was sponsored by UNITAS (Switzerland).

9. YOUTH EMPOWERMENT SCHOLARSHIP

Under our Youth Empowerment Scholarship Scheme Rs. 7,59,550/- were disbursed to 120 visually impaired students of Colleges/Departments across India. Applicants securing first division or upper second division in their previous examinations were considered for the scholarship. These scholarships have enabled the recipients to pursue their higher education in an effective manner.

10. COMMUNITY-BASED REHABILITATION PROGRAMME FOR RURAL BLIND PERSONS

The Confederation's interventions for the upliftment and empowerment of visually impaired persons living in rural areas have been recognized across the country as well as internationally. We were awarded a major project by the Danish Association of the Blind in 2020. During the period under report, 229 visually impaired persons (M-157, F-72) were provided training in Jalaun and Pratapgarh districts and 107 persons (M-74, F-33) were economically rehabilitated to set up enterprises like small shops, animal husbandry, etc. through a grant of Rs.16,05,000/-. An important outcome of this project is the establishment of six Chapters in Jalaun and Pratapgarh districts of Uttar Pradesh. This would enable visually impaired persons to support each other and voice their concerns as well as work towards a solution to their problems in their respective areas. This, in our view, is an important step forward towards our self-help movement. The Head of Team, International Development, DAB, Mr. Thomas Skielboe visited the CBR area along with our Secretary General, Padma Shri J.L. Kaul and was quite happy with our progress. They also had a discussion with our Office Bearers. The DAB project was also evaluated by an external expert who submitted a very positive report, appreciating the work done by AICB.

11. RESEARCH PROJECTS

11.1 *Barriers faced by women with visual impairment for active participation in management levels and important*

decision-making processes in organizations working with persons with visual impairment:

Women Committee of AICB, with financial assistance from CBM, conducted a research study on 'Barriers faced by women with visual impairment for active participation in management levels and important decision-making processes in organizations working with persons with visual impairment' under which 50 organization heads and 120 visually impaired women from 13 states were interviewed. For this purpose, two questionnaires were prepared, one for the heads of the organizations and the other for visually impaired women. The results of this research study were shocking. Most visually impaired women said that lack of training in mobility and orientation, family problems, lack of confidence, lack of training to work in an organization etc. are the reasons for not being active in organizations. Visually impaired women also believe that male-dominated or patriarchal attitude in most organizations does not allow visually impaired women to come forward. As a result, there is a need to work to increase the role of visually impaired women in organizations. The Confederation will try to carry forward this work in the coming years.

11.2 *Research study to ascertain the achievement levels in major subjects, which may require Braille reading and writing efficiency of Class Vth and Class VIIIth visually impaired students from mainstream Govt. schools in 10 states:*

With financial support from CBM, this research study was undertaken in 10 states, taking a total sample of more than 100 visually impaired students. Various (subject specific) tools/questionnaires were prepared and separate investigators were appointed in each state. The study could not be carried out in 2 states as the investigators could not obtain any specific data from the Govt. agencies and could not locate visually impaired students in the districts surveyed by them. The results from remaining 8 states indicate inadequate data being maintained on the part of Govt. agencies, lack of Braille learning facilities and Braille knowledge among the visually impaired children and use of alternative methods to study various subjects. Most students were able to respond to our subject-specific questionnaires with 50-70% accuracy. Their general performance in examinations is somewhere between the highest and the lowest.

The Confederation will make use of this research study to strengthen inclusive education system in various parts of the country.

11.3 *Identification of jobs for the visually impaired in 10 key corporate sectors:*

With financial support from DAB, a research study was conducted with companies belonging to 10 key corporate sectors to identify possibilities of jobs for the visually impaired in private sector. The study was based on interviews with key managers of these companies and also examine the use of assistive technology to enable such persons to perform efficiently in the Corporate sector. More than 400 jobs for the visually impaired were identified in the 10 corporate sectors covered under this study.

12. PENSION TO ELDERLY BLIND PERSONS

During the period under report, an amount of Rs. 2,88,000/- was spent for the purpose of providing financial support of Rs. 6,000/- per person to 48 elderly blind persons. Though it is not a big amount but surely it shows our commitment towards elderly blind persons.

13. BRAILLE EQUIPMENT BANK

During 2023-24 financial year, we received requests from Bihar Netraheen Parishad (Patna), Drishti (Chitrakoot) and Development Welfare Association for the Blind (Telangana) to run Braille Equipment Bank in their respective areas and assistance was provided to them by AICB. We also run this project through our Head Office at Delhi.

15.5 Workshop on Cyber Security: A workshop on Cyber Security was also conducted by Dr. Divya Tanwar at the campus of AICB on 18th February, 2024, providing valuable insights and practical guidance to visually impaired students to safely navigate the digital world. Through raising awareness about cyber security risks and empowering students with knowledge and accessible tools, the session aimed to enhance their online safety and digital resilience. The presenter highlighted various cyber threats and their potential impact on individuals and organizations. Special emphasis was laid on accessible tools and technologies designed specifically for visually impaired individuals to safely navigate the digital landscape.
